

# MINUTES- Selectboard - September 14 2017

Attendance: Tom Dibble, Greg Eckhardt, John Ogden, Andrea Ogden, Chrystal Cleary, Jay Merrill

Call to order 8:08 AM

The Board approved last meeting's minutes

- The Board voted to approve the advance payment requested by the BRSU of the Town's share of the school district amount for the year. This was requested because the SU had \*almost\* enough money to avoid the usual practice of borrowing their startup costs for the year, and sought to collect payments from the Towns a little early in hopes of avoiding borrowing altogether. Since Landgrove has collected enough taxes to make this payment, the Board voted to make it early.
- Road signs: Andrea has contacted the Dept of Corrections about ordering signs but has not gotten responses to her messages. Greg shared some contact info that he had to help move things forward. John and Tom will compare sign inventories and get the order list on next meeting's Agenda.
- Beaver Works: Tom will get the supplies for building the workaround pipe for the beaver dam. A letter from Craig Hafer about beavers and the Utley Brook was presented, but this item will be discussed in detail at the next SB meeting as well.
- Town Hall storm windows: three of the big windows of the main hall have broken, but may be complicated to repair due to the fixed nature of the storm window frames. John is going to think about the options and this will also be pushed to the next Select Board meeting agenda.

Meeting adjourned at 9:06 AM
