

SelectBoard Meeting- February 27, 2020

Attendance: Michael Jeffery, Steve Hall, John Odgen (by telephone), Chrystal Cleary, Kimberly Eckhardt, Will Goodwin

Call to order 8:10am

- With the search narrowed down to two strong contenders, the Sandbox committee will need to be reconvened. A cost analysis will need to be produced for both options.

-Zoning Administrator Will Goodwin brought up the Permit fee Schedule, but changes to this are being tabled until After Town Meeting.

- the Planning Commission designated the commercial Zone as the “preferred area for solar development”. Selectboard members present signed the formal designation.

- Will also found out that the County DOT is the place to apply for Structures grants for our sand shed.

-Road Commissioner Steve Hall : FEMA reimbursement update- FEMA has all the papers needed to process our town’s repairs from storm damage last spring. Steve just needs to write a brief letter describing our Town Procurement processes.

- The whole FEMA process underscores the need for separate billing of what road work is done in each place , when and with what materials and labor. Perhaps a new itemization under a contract for summer road work.
