

## Minutes, Selectboard Meeting, April 9 2020

Via conference call 8AM

Present: John Ogden, Steve Hall, Andrea Ogden, Chrystal Cleary

-Pay orders were signed as well as the Agency of transportation financial Statement form- electronic signing went smoothly.

-Treasurer Andrea Ogden will be sending out a Year to Date budget update by email this week. Steve asked if we would be able to see the money coming in as well (ie from grants)? Andrea replied that the positives will be shown in a separate monthly report.

- Steve has been talking with Eric at FEMA- the reimbursement we were expecting of \$40,000 is reduced to \$26,000 because it turns out that the government considers Hapgood Pond Road to be a major collector" road and under a category that is funded differently than our other roads. Eric did not know how to direct the application for a road of this category, so Steve is doing some more detective work to find that answer.

- Jay's winter contract was reviewed briefly in terms of clarifying the scope of work and the end date (two weeks from today).

- John went over the technology upgrade coming soon from Silloway networks- from Office 365 to Microsoft 365, which will give the Town additional accounts for email and improve the pass-on ability when officers turn over, as well as ease directing mail to that department, not anyone's personal email. He is scheduled to speak with Dean Silloway later today.

Submitted by Chrystal Cleary, Town Clerk
